

When I Go

Ingrid Michaelson

There's room enough
Oh there's room enough
If everybody made a little space right by their side
Oh there'd be room enough There's love enough
Oh there's love enough
If everybody folded out their arms open wide
Oh there'd be love enough I'm never gonna let you go
I'm never gonna let you go
I'm always right behind you
I'm always right behind you I'm never gonna let you go
I'm never gonna let you go
I'm always right behind you When I go
Oh when I go
Just tell me that you love me
And make some room for me by the sea
When I go And if I'm
Right behind
Behind you
You can fall back
You can let go
I'm right behind you* I'm never gonna let you go
I'm never gonna let you go
I'm always right behind you
I'm always right behind you* And if I'm
Right behind
Behind you* I'm never gonna let you go
I'm never gonna let you go
I'm always right behind you
I'm always right behind you* You can fall back
You can let go
I'm right behind you When I go
Oh when I go
Just tell me that you love me
And make some room for me by the sea
When I go
