

# Constantly Dirty

## Tech N9ne

Yeah man, niggaz think it's all peaches and cream  
Shit's hard right now man, it's real shit  
Me and my road dogs man on this one  
We stay constantly dirty, grittin' for our shit  
Y'know what I'm sizzlin'? Ain't nobody every gave me nothin', I'm on my own  
I was down and dirty when I was young but now I'm grown  
And I continue to struggle ya heard me  
Me and my niggaz in the course and we constantly dirty Ain't nobody every gave me nothin', I'm on my own  
I was down and dirty when I was young but now I'm grown  
And I continue to struggle ya heard me  
Me and my niggaz in the course and we constantly dirty Ain't nobody ever gave me a thang in my lifetime  
So I'm on my own, standin' strong, holdin' chrome  
Disrespect my villians, get 'em gone, early mo'n  
On the co'n, get my hustle on I stays dirty, chippin', choppin', flippin' birdies  
I'm pushin' thirty, vision clear, I'm never blurry  
Plottin' plans, strategic mission, I'm on my toes  
I stays with fam my mans, to shake these fuckin' foes Lord, knows all the different situations, trials and  
tribulations  
Aggreventions that a nigga's facin'  
I get complacent that's my ass, I'm a memory  
They spillin' liquor on the curb when they mention me But they're ain't no fear in me, get it how you live  
That's if you hearin' me then dug down and dig  
Lace your boots man, prepare for the struggle  
Stay in them trenches, hella dirty, grit and hustle Ain't nobody every gave me nothin', I'm on my own  
I was down and dirty when I was young but now I'm grown  
And I continue to struggle ya heard me  
Me and my niggaz in the course and we constantly dirty Ain't nobody every gave me nothin', I'm on my own  
I was down and dirty when I was young but now I'm grown  
And I continue to struggle ya heard me  
Me and my niggaz in the course and we constantly dirty Nigga, I got a pocket full of G's, I'm constantly servin'  
My Nina knock him to his knees, I'm constantly dirty  
Super Villian, check my powers, I get the early worm  
Chop with choppers, lose the coppers with just a single turn True to life, through the mic, they got me tellin'  
stories  
With the fame and the lights, I feed my territory  
Gutter livi'n with precision, them busters know they phony  
Flip my profit keep on rockin' it for my dead homies They wanna follow my shadow and waddle in the mud  
It's the infallible cannibal with the dirty gloves  
'Absolute' with this 'Power' they call me realistic

Savage Bakarii still comin' up off that fetal livin' Givin my life, to the night, on the dirty  
All my might, when it's right, then I strike on them early  
Twisted like livin' dirty, super savage  
I'm out to get that bread  
Gutter livin' that's my habit until I rest my head Ain't nobody every gave me nothin', I'm on my own  
I was down and dirty when I was young but now I'm grown  
And I continue to struggle ya heard me  
Me and my niggaz in the course and we constantly dirty Ain't nobody every gave me nothin', I'm on my own  
I was down and dirty when I was young but now I'm grown  
And I continue to struggle ya heard me  
Me and my niggaz in the course and we constantly dirty Which one of y'all can I holla at  
When it's time to pay rent?  
And who you think's gonna loan me money  
When my last bread is spent? I got an even shorter list of people  
To call on when I'm in a pinch  
So I might just walk around  
With my jaws clenched like The Grinch I'm, headed for trouble 'cuz I can't sit here and struggle  
How do I bubble if I don't get out and hustle?  
I'm in the wind put the spud on my muzzle  
Put on my hood, grab my gloves and my shovel Tie up my boots because the mud it gets thick  
And hit a lick so quick, they think I love this shit  
It's real life gutter livin', nigga comin' straight from the brain  
Some handle the pressure and others break from the pain It's been fifteen other damnedest  
And ain't nothin' changed but the weather  
Time's still gettin' harder and niggaz can't stick together  
All through my teens, my twenties, even when I'm thirty  
T-Will'll be gritty, grimey, constantly dirty Ain't nobody every gave me nothin', I'm on my own  
I was down and dirty when I was young but now I'm grown  
And I continue to struggle ya heard me  
Me and my niggaz in the course and we constantly dirty Ain't nobody every gave me nothin', I'm on my own  
I was down and dirty when I was young but now I'm grown  
And I continue to struggle ya heard me  
Me and my niggaz in the course and we constantly dirty Yo!, ain't nobody gave me nothin' but God  
He gave me talent, these civilians perpetratin' the fraud  
That point is valid, got niggaz sayin' they made me  
The only thin' that was made was music  
'Cuz nobody ever properly paid me Don't get it twisted, that little money was appreciated  
It got me out there again, glad that's alleviated  
But the nigga that say I didn't have a followin'  
Before Mitchell Bade hit the streets must be inebriated Soon as Mitch hit, it hit  
Because we some talented motherfuckers but they still talk shit  
Keep that shit low black, that shit be gettin' back  
To a nigga that will fight for you at the drop of a hat I tried to tell 'em, let me do this here  
They talkin' like they don't want Nina gettin' through this year  
I'm still strugglin' hard, how can niggaz disregard? I'm thirty

Watch what you say when you speak to little birdies  
I'm constantly dirtyAin't nobody every gave me nothin', I'm on my own  
I was down and dirty when I was young but now I'm grown  
And I continue to struggle ya heard me  
Me and my niggaz in the course and we constantly dirtyAin't nobody every gave me nothin', I'm on my own  
I was down and dirty when I was young but now I'm grown  
And I continue to struggle ya heard me  
Me and my niggaz in the course and we constantly dirtyConstantly dirty, constantly dirty  
Constantly dirty, constantly dirty  
Constantly dirty, constantly dirty  
Constantly dirty, constantly dirtyAin't nobody every gave me nothin', I'm on my own  
I was down and dirty when I was young but now I'm grown  
And I continue to struggle ya heard me  
Me and my niggaz in the course and we constantly dirty
