

# Dead Record Player

## Dr. Dog

Got a phonograph on my four headed friend  
it plays sad songs about the dead.

When i listen to my records  
no matter what they are,  
they sound real good,  
but real weird.

I know something  
yes something,  
yes something,  
yes something,  
is wrong, oh yeah.

Oh my old records used to  
not want me dead,  
now they do.

How about it.

Well monkeys sounding like a chorrus but i dont mind  
it sounds real good and still keeps time.

And the beetles they keep singing 'bout  
graveyards and blood,

it sounds so good that i cant get up.

I know something,  
yes something,  
yes something,  
yes something,  
is wrong, oh yeah.

Oh my old records  
used to not sing about the dead,  
now they do.

The music is killing me  
The high and low fidelities  
are attacking my brain,  
and it's terrific  
the music sounds just great,  
it's terrific.
