Advisory - the following lyrics contain explicit language:

Yea, this is for the cowboys and the cowgirls out there. YeaCome on (x3)Will you keep me around and around and around.How do you keep me around.You know Im just a cowboy. Even though I'll be out every night on the town. Come around, when Im down girl.Will you keep me around and around, and around.

You know Im just a cowboy. Even though I'll be out every night on the town. Come around, when Im down girl.Will you keep me around and around, and around, and around.You know I like to play, and fuck, and get drunk, and smoke blunts with the boys in the club. In the back fucked up. And I dont fight with a bitch, I'll laugh and just leave. Had a broad on the trail, take the sail just believe.Did you stay with me, come play with me, pretend to? Do you really even know, I don't really love you, I don't really love me. So I'll pick this through you. You aint seen time on a wratchet like sex thats sweet.Im just a cowboy. Im makin money man. On the prow with my dude and I'm thinking of your family. Cause really I dont need a woman. I dont need a a friend sent over. Back from where from where your comin and she'll find another man. I met them all down to hood girls. Hustlers in the world. Every momma wanna ball, ball on the curb. Still I've seen nothing, oh nothing that brings nothing. So I should give you something, but its not going to get you knowinIm just a cowboy. Even though I'll be out every night on the town. Come around, when Im down girl.Will you keep me around and around, and around.

You know Im just a cowboy. Even though I'll be out every night on the town. Come around, when Im down girl.Will you keep me around and around, and around.I'm married to the money

I'm married to the game

I'm married to the money

Still the same ole G

(x2)And girl you know you gotta fuck her. No im never ever gonna call back, you know that. Im attached to the stacks and fat track. I work on dedicated hearts and fall back.And you know I know its right in front of me. The money, cars, and clothes have got the best of me. Im a cowboy and your my exstasy. Get off cause noone rides with me.

See you in the worst, you know your the best one, I cant choose one girlYou know Im just a cowboy. Even though I'll be out every night on the town. Come around, when Im down girl.Will you keep me around and around, and around.

You know Im just a cowboy. Even though I'll be out every night on the town. Come around, when Im down girl.Will you keep me around and around, and around, and aroundI'm married to the money

I'm married to the game

I'm married to the money

Still the same ole G

(x2) You know I'm just a cowboy. Even though I'll be out every night on the town. Come around, when I'm down  
girl. Will you keep me around and around, and around.
