One NIght

Smiley Lewis

One night of sin,
Is what I'm now paying for
The things I did and I saw
Would make the earth stand stillDon't call my name
It makes me feel so ashamed
I lost my sweet helping hand
I got myself to blameAlways lived, very quiet life
Never never did no wrong
Now I know that very quiet life
Has cost me nothing but harmOne night of sin,
Is what I'm now paying for
The things I did and I saw
Would make the earth stand still
