Kill The Messenger

Jack's Mannequin

Oh my God, this hurts like hell
I had that dream again
Where I was lost for good in outer space
Tell me, doctor, how to shake?
A waking nightmare that is only worse
When I am sleeping
Kill the messenger, I swear it's not me
It's just someone I used to know
And get to church 'cause you're a good girl
And I never told you that
And all I need from you
Could be the thing
[Incomprehensible] up here forever
I'm gonna send little rain your way
I'm gonna send little rain
It's not so easy caving in
I walked by your apartment twice today
While you were gone at work
And all the colors got so down
It's not as cold out here
But come quick, I am losing feeling
Kill the messenger, I swear it's not me
It's just someone I used to know
And get to church 'cause you're a good girl
And I never told you that

And all I need from you could be the things
Leaves me locked up here forever
I'm gonna send little rain your way
I'm gonna send little rain, send little rain
I'm gonna send a little rain
To pour down on you, oh
Rain that makes the flowers bloom, you know
Rain to leave you all alone
But keep eyelashes falling
And wishes washed away
Kill the messenger, I swear it's not me
It's just someone I used to know
And get to church 'cause you're a good girl

And he never told you that
And all I need from you
Could be the thing
[Incomprehensible] up here forever
I'm gonna send little rain your way
I'm gonna send little rain, send little rain
I'm gonna send little rain
I'm gonna send little rain your way
I'm gonna send little rain
I'm gonna send little rain
