Personal Victory

Play

Dream maker you've become a nightmare
You made me want you bad but now I don't care
Heart breaker pain is your addiction
The time has come to find another victim
I need a lover who'll be good to me good to me
Don't need somebody trying to say there's something
Wrong with me
I need a love who'll be on my side on my side
Leaving you has turned out to be
My personal victory that's right
I'm breaking out and taking back my life
It's my personal victory inside
I'm making my decisions and they're mine all mine all
Mine all mine
It's my personal victory
Fame player now your game is over
You thought you played me good but who's the loser
I'm getting stronger by the minute
My world is better now that you're not in it

I need a lover who will talk to me talk to me
Don't need nobody who will walk all over me
I need a lover who will take the time to be mine
To love myself first must be
My personal victory that's right
I'm breaking out and taking back my life
It's my personal victory inside
I'm making my decisions and they're mine all mine all
Mine all mine
It's my personal victory
I'm never gonna let somebody own me
Or ever let somebody make me feel small
I'd rather spend my nights alone and lonely
With my head held high and walking tall
My personal victory that's right
I'm breaking out and taking back my life
It's my personal victory inside
I'm making my decisions and they're mine all mine all
Mine all mine

It's my personal victory
