

The Universe Is Ours (Mix Cut) [feat. Reunify]

Headhunterz

Just hold tight
In my eyes
We're sunlight
We can touch the sky
We can touch the sky The long nights
And the cold fights
Till sunrise
Watch our hearts collide
Watch our hearts collide We can do what we want
Shine bright like the stars
Just come alive tonight
Come here take my hand
The universe is ours
Just come alive tonight
The universe is ours The universe is ours
The universe is ours The universe is ours
The universe is ours We can do what we want
Shine bright like the stars
Just come alive tonight
Come here take my hand
The universe is ours
Just come alive tonight
The universe is ours The universe is ours
