Coleco Music

Fresh winds shadows lifting
Wide open welcoming hearts
Against the pink sky blackberry tangles
A circle of friendship begin under the stars

And this is life
Full of beauty and wonder
Beauty and wonder
And this is life
Full of beauty and wonder

In the twinkling of an eye it came to me
Peace at last within myself
And the white spray of the waves
And the moon is my night light

And this is life
Full of beauty and wonder
Beauty and wonder
And this is life
Full of beauty and wonder

This I will remember with a smile
I kiss the earth and the cool grass
Perfect pleasure in the eyes
And kick out the pain and fill in the better

Life full of beauty and wonder
Yeah yeah yeah
And this is life
Full of beauty and wonder

This is life, this is life
Full of beauty and wonder
