By Your Side

Lifehouse

All I want now is to be with you
Cause you know I've been everywhere else
Looking back at what you got me through
You knew me better than I knew myselfWhen I feel lost and I can't find my way
When words are at a loss I can hear you sayI'll be by your side, when all hope has died
I will still be around oh and I, I'm still on your side
When everything's wrong, I will still be around
By your sideFighting my way back to where you are
The only place I ever felt at home
Stumbling backwards through the dark
I know how it feels to be alone
And where we go is where I wanna be
And in the silence I hear you say to meI'll be by your side, when all hope has died
I will still be around, oh and I, I'm still on your side
When everything's wrong, I will still be aroundI can't wait another day to show my space between
Your heart and mine, and you're all that I need
You say II'll be by your side, when all hope has died
I will still be around, oh and I, I'm still on your side
When everything's wrong, I will still be around
By your side, by your side, by your side, by your side, by your side
