# All My Bridges Burning

## Los Lobos

When we were young
Taking time to believe
If only to survive
What you gotta believeIf only to survive
Survive in this world
In this crazy life
Gotta give it a whirlAll my bridges burning
Almost burnin' down
All my bridges burning
Burning to the ground
It's burning downBurning downTry'n hard to believe
There's something more than me
Something outside myself
That wants me to be freeSet my bridges all aflame
So I could not return
Gotta walk on straight ahead
To learn what I need to learnAll my bridges burning
Almost burnin' down
All my bridges burning
Burning to the ground
It's burning downBurning downGoing where I belong
I hope there's time for love
Don't care what time it is
It's just never enoughJust making music
Keep my feet on the ground
Couldn't live without it
Helps me to stick aroundAll my bridges are burning
Almost burnin' down
All my bridges are burning
Burning to the ground
