Watch TV

TV Baby

I'm the lucky one always having fun
I tie back my hair I sit and watch T. V.
I see only me, though I look for you thereOh, where have you gone? Were you canceled?
I change to channel 2
You were the one who gave me all my answers
I changed so did youTry another show with the volume low
I make up what they say
Where it used to be your face is an empty space
Your co-stars look awayOh, where have you gone and do you miss me?
And what we used to do?
You were the one who'd talk and smile for half an hour
Always newI'm the lucky one I watch a re-run
It looks a lot like youOne star lost a family one family lost a star
That's why I wait and watch to find out where you are
One family lost a star one star, they lost their family
That's why I sit at home alone and Watch T. V.I can watch forever I can watch for hours
It just get better it gives me power
I can watch for hours I can watch forever
It gives me pleasure it makes me betterI'm the lucky one always having fun
