Girl Next Door

Broken Heart College

The girl next door is not the girl next door
The girl next door is not the girl next door
She's the girl I'd stay home for
She doesn't know that I'm breathing
She doesn't know that I'm alive

She doesn't know what I'm dreaming
When I see that she's turned out her lights
And does she see me like I see her
More than just the boy next door
The girl next door is not the girl next door
