

How About You

George Duke

How about you?
Will you see this through?
How about you?
Will you be strong or am I wrong? Have I stayed too long
And sung the wrong song, oh baby
Come home too late, put you in a state
That you can't see your way through Oh, how about you?
Will you even try not to deny
That that is right with us
Baby hold on, before it's gone, oh How about you, baby?
Do you say we're through?
Oh, how about you?
Have you moved on, found a new song? Oh, how about you?
Should we start anew?
Won't you answer me please? I'm down on my knees
Beggin' you to make your move Do you feel the same or am I insane?
Blinded by cold-hearted love
Is this a game, that both of us lose?
Baby, please, please choose How about you?
Do you feel like I do?
How about you How about you?
This tango's for two
Oh, how about you? Will you even try not to deny
That, that is right with us
Or am I insane
Blinded by cold-hearted love
Is this a game, that both of us lose?
Come on, just choose How about you, baby?
I want to see this through
Now it's up to you, decide what you'll do
Before it's too late How about us
How about us
