In My Arms (Cinematic Version)

In My Arms
The Tide & The SeaYou hold me close
And whisper love
Your hand in mine
More than enoughLove will find you
Love will find you in my arms
Love will find you
Love will find you in my armsThese battle scars
Know the road my heart has traveled on
But this love is strong
And you will carry me homeLove will find you
Love will find you in my arms
Love will find you
Love will find you in my arms
I belong to you aloneWe could hold the world, watch it fade
But I swear to you, love remainsLove will find you
Love will find you in my arms
Love will find you
Love will find you in my arms
I belong to you alone
