

# Darkling

## Orenda Fink

Unearth us  
Where we lay  
We fell and we're fading  
Unearth us  
You know we tried Our heartbreak is a break through  
You miss me and I miss you  
Our heartbreak became the light You always knew  
I would love you in the darkness  
You always knew  
With a hand up to the sunset  
My eyes burn and they get wet  
My eyes burn but they are wide My love is like water  
It flows in the water  
I'm drowning and then I'm dry You always knew  
I would love you in the darkness  
You always knew  
You always knew  
I would find you  
Here in goodness  
You always knew  
You always knew  
You always knew  
I would love you in the darkness  
You always knew  
You always knew  
I would find you here in goodness  
You always knew
