Lead The Parade

Korn

Lost and alone I'm out of the stone ?? this process everyday Nothings my own The dreams that I've grown I won't control and throw away I need to make the decisions I need to make it right I need to lead the parade Or this shit will fucking take my life I want to kill the decisions I want to make it right I want to pass this test And complete my tormented life This curse is my own It follows me home Its like a child that wants to play The thoughts in my brain The subconscious pain Makes me think why do I stay I need to make the decision I need make it right I need to lead the parade

Or this shit will take my life
I want to kill the decisions
I want to make it right
I want to pass this test
And complete my tormented life
I want to kill the decisions
I want it to be right
I want to pass this test
And complete this tormented life
Happy, everything was wonderful
So happy, it's beautiful
I need to make the decision
I need to make it right
I want to kill the decisions
I want to make it right

I want to pass this test
And complete my tormented life
I want to kill the decisions
I want to make it right
I want to pass this test
And complete my tormented life
I'm happy, I knew you'd make it right
Everything is wonderful
