

# Love And War

## Pro-Pain

crucify yourself  
if you can save your face justify all your wealth  
and leave that nasty taste seek and ye shall find a world of discontent  
so sign that bottom line to pass the time well spent I've given all I had to give  
I've waited all my life to live  
I ran beyond that extra mile I've got to make this all worth while all is fair in love and war dignified, we speak and  
all of us are never heard lash out and spread the word  
truth is all we seek paradise is lost and nothing is the same  
every line was crossed and no one took the blame I've waited all my life to live  
I've given all I had to give  
I ran beyond that extra mile I've got to make this all worth while all is fair in love and war
