

Entropy Within

Anata

Under fire, we're at war
Information is colliding
With our great intentions
And distracting our flow of energyWe are enslaved
By fear, rage, pain and jealousy
Incarnations of chaos
Rule our mind, kill our aspirationsLet's not fight ourselves
But the entropy ruling our minds
It's a fight for our lives
A strife to take control of our perceptionFight, keep fighting the enemies within
Fighting the entropy withinKey to unlock the treasury
Concentration undisturbed
State where body and mind unite
Time fades and we're filled with euphoriaFight, keep fighting the enemies within
Fighting the entropy within
