

# Lisa

## Lita Ford

Lisa, you are the shelter for my soul  
Lisa, you heal my heart when I lose control  
As I let my fingers trace  
Each time worn line upon your face  
I know only love creates a masterpiece like you  
I know it's true  
Lisa, Lisa, say you're gonna live forever  
Lisa, Lisa, never gonna say goodbye  
Only you know who I am  
Only you really understand  
Nothing's gonna take you away

Lisa, I know we live in different worlds  
Lisa, and I will always be your little girl  
And on a stormy night  
You built a rainbow to my door  
I'll always remember you  
Lisa say you're gonna live forever  
Lisa, Lisa, never gonna say goodbye  
Only you know who I am  
Only you really understand  
Nothing's gonna take you away from me
