Ocean Size Love

Leigh Nash

I know what I'm doing may be dumb
I know I should not be staring at the sun
But the thought of you leads me to temptation
It's the same whatever side you're on
Separated we are delicate and small
And the space between needs a retention

I see you right in front of me as close as you can get
And I pray that you won't leave this daydream yet

And it might seem much too far to get back to where you are
But it's close enough with an ocean size love
So if you can't reach out to me
Send a sign across the sea and I'll pick it up with an ocean size love

I don't have to worry anymore
If I really need you I'll go to the shore
And the thought of you there is my protection

I see it right in front of me
A vision in my head
And I know this is as real as a daydream gets

And it might seem much too far to get back to where you are
But it's close enough with an ocean size love
So if you can't reach out to me
Send a sign across the sea and I'll pick it up with an ocean size love

You make no sound but I can hear you in the wind
I can see this never ends
Like the sea
Like you for me

And it's close enough with an ocean size love
So if you can't reach out to me
Send a sign across the sea and I'll pick it up with an ocean size love

And it might seem much too far to get back to where you are
But it's close enough with an ocean size love
So if you can't reach out to me

Send a sign across the sea and I'll pick it up with an ocean size love
