Fire

Haywire

Oh the nights have been too long
Always turning back to these familiar pages
I see us there our eyes in tune
I'd follow you wherever your heart would lead us to
So what did I say so wrong
You could have let me know
Was it that talk of love
What killed the embers glow

I'm on Fire, Fire
For the love that slipped away
I'm on Fire, Fire
For this love

Seems so long since you've been gone
Got to make some sense of these fallen pieces
Then I turn I see your face
How could I lose this heaven at my fingertips
Ohhh

It's gonna take more than time
Can I be that strong?
Am I lost forever?
Now you're in my soul

I'm on Fire, Fire
For the love that slipped away
I'm on Fire, Fire
For this love

I'm on Fire, Fire
For the love that slipped away
I'm on Fire, Fire
For this love

You'll never know

I'm on Fire, Fire
For your love that slipped away
I'm on Fire, Fire

For this love

I'm on Fire, Fire
For the love that slipped away
I'm on Fire, Fire
For this love

I'm on Fire
I'm on Fire, I'm on Fire
