## Sepultura

Our pulse to resist  
Moves our cultural resistance  
I'm living this life  
Inside a civil tribe demised  
Improve my old mind  
Breaking all rules absorbing what I may find  
Our manner to protect  
Destroys what's left for protection  
Believing in symbols  
The church will fool our souls  
Prove you my role  
Acting against undesired control  
Don't fear your left  
Don't trust your right  
Activist  
Our way of seeing progress  
Making us walk towards repression  
Disturbing our peace  
In the name of self defense  
Being felt by all  
Our violent taste for the humans fall  
Don't fear your left  
Don't trust your right
