

Baby Your My Good Thing

Murray Porter

Somebody once told me
Never let a good thing go
Maybe that's the reason
I want you to know
I feel like I'm in love for the first time
It's like its never felt before

Baby, you're my good thing and I'm never gonna let you go

I used to be a wild one
My heart was like a stone
I'd love 'em and I'd leave 'em
And wind up all alone
But that's before I felt the magic
And your smile I've come to know

Baby, you're my good thing and I'm never gonna let you go

I feel like I've known you for a lifetime
That is not so long ago, yeah
But I was going through the motions
And now your lovin' has made me whole

The moment that I wake up
I want you by my side
And if I can't be with you
You're still on my mind
I know I sound just like a school boy
But it's all because of you

Baby, you're my good thing and I'm never gonna let you go.... oooh
Baby, you're my good thing and I'm never gonna let you go - (I'm never gonna let you go)
Baby, you're my good thing and I'm never gonna let you go.... Mmmmm
