Trained

Najwa

Trained
You got me trained
You got me trained like a circus freak
To go behind my ears with my feet
While jugglin' fire and keepin' a beat
You got me, you got me, you got me, you got me
You got me trained to sit with your monkey
And watch him eat while I go hungry
With your hand up my back like your dummy
You got me, you got me, you got me, you got me
You got me trained like a heavyweight in his prime
You say to jump and I say "From how high?"
Tell me to swing and I'll kick up my legs
You say mercy and I drop down and beg
Trained
You got me trained like a rat in his cage
You got me trained to always act my age
You got me trained to never show my rage
You got me, you got me, you got me, you got me
You got me trained to follow your lead
You got me trained to go without what I need
You got me trained to never ever bleed
You got me, you got me, you got me, you got me
You got me trained like a heavyweight in his prime
You say to jump and I say "From how high?"
Tell me to swing and I'll kick up my legs
You say mercy and I drop down and beg
You got me trained like a dog on a leash
You got me trained how to act how to speak
You got me trained to never release
You got me, you got me, you got me
You got me trained like a heavyweight in his prime
You say to jump and I say "From how high?"
Tell me to swing and I'll kick up my legs
You say mercy and I drop
