## They Might Be Giants

Everybody at the party is a many sided polygon  
When a guest arrives  
They will count how many sides it has on  
Standing by the window over there  
There is a shape with four sides, so it's a square  
And the one who has nine is looking fine  
And its name is Nonagon  
Everybody turns just in time to see the pentagon arrive  
Counting up the sides, it is clear the pentagon has five  
Chatting in the kitchen we see  
There is a triangle whose sides number three  
And is talking to the shape that has nine  
Who is known as Nonagon  
Nonagon Nonagon, lets in a guest who has shown up late  
Its name is Octagon and its sides add up to eight  
Turning the music on is a six sided hexagon  
And they all get in a line and do  
A dance called, 'the Nonagon  
The Nonagon  
The Nonagon
