## Bleeding Through

Name one thing you've ever fucking had to  
Give your goddamned life for.  
I've endured enough bitterness,  
Deflating hearts, complete disgust,

But you're so fucking perfect.  
Your life's so perfect until you follow my footsteps.  
Through shallow waters, I've overcome.  
What do you know about sacrifice?

You're just an afterthought flesh without bone.  
So here you sleep in your kingdom,  
You walk through shit to rest on your throne.  
I gave my life to this and I've watched my distance grow.

I've paid enough with disconnect from the people,  
I've grown to love.  
So who the fuck are you?  
You bare the curse of the snake.

I've heard every insult, I won't suffer your emptiness.  
I've sacrificed enough for this life,  
So get the fuck out of my way.
