

Love Is Required

Elisa

so the day has finally come
with my past ive drawn the sum
and im glad im moving on
lost in un-returning time
let the winter chill my prime
but im done, im moving on
looking back can help you through
but i wonder if thats true
i dont wanna have to stake it
ohhhmaybe sorrow is my gain
and im learning from the pain
but im ready to move on
coz the moments high
and my tears have driedand i feel
show myself in flame and steel
coz the moments nigh
and im out to try
this is real
clad myself in flame and steelyeah, youll be invited
if youre willing to show your hand
love is requited
yeah, youll be invited
if youre willing to show your hand
love is requitedlost in un-returning time
let the winter chill my prime
but im done, im moving on
maybe sorrow is my gain
and im learning from the pain
but im ready to move on
coz the moments high
and my tears have dried
and i feel
show myself in flame and steelcoz the moments night
and im out to try
this is real
clad myself in flame and steel
yeah, youll be invited
if youre willing to show your hand
love is requited

yeah, youll be invited
if youre willing to show your hand
love is requited
