Against All Authority

Don't try to understand it The most destructive high Everybody's lookin' for something I know just what I need Shoots my nerves into the sky I'm addicted to the speed Rent-A-Cops try to stop me - I wanna see you try I grab my skate and catch some air I just want to skate or die Faster than lightning and out of sight Like a demon in the night I'm grinding my life away but I don't care 'Cause skating for me is more than a feeling I'm a prisoner of life Run for cover - I hear somebody squealing You better back off or I'll knock you off your block A slave to the grind Stupid Rent-A-Pig, you try to make me stop I slide into the future and leave my worries behind
