I Trained Her to Love Me

Nick Lowe

Do you see the way she lights up
When I walk in the room? Thats good
And they skippin a step
When were both out walkin in the neighborhoodThis ones almost done
Now to watch her fall apart
I trained her to love me
So I can go ahead and break her heartIf you think that its depraved
And I should be ashamed, so what?
Im only payin back womankind
For all the grief I gotIve got the latest believin
Forever Ill be true
I trained her to love me
Now excuse me, Ive got work to doI trained her to love me
And Im gonna start workin on another after this
And when I get that one in a state of bliss
Betray her with a kissWell, one time, one caught up rough
And told me I only do this cause I can
And Im bound to wind up
One lonely twisted old manBut look out, here comes
A prime contender for my agenda, if ever there is one
And I am gonna train her to love me
Until its time to do what must be doneTrained her to love me
And Im gonna start workin on another after this
And when I get that one in a state of bliss
Betray her with a kissAnd Im gonna start workin on another after this
And when I get that one in a state of bliss
Betray her with a kiss
I trained her to love me, too late to stop now
