Without

The Soft Moon

Without you in my heart
Still feel you within
Without you by my side
Without you in my life
Without you in my heart
Still feel you within
Without you in my heart
Without you in my heart.Without you in my heart
Still feel you within
Without you by my side
Without you in my life
Without you in my heart
Still feel you within
Without you in my heart
Without you in my heart
Without you.
Without you.
Without you.
Without you.
