

One More Night With You

Wade Hayes

I go to the job every morning and I work like a dog for my pay
And my mind and body aches, it takes two coffee breaks
Top get me to the end of my day
Well, I do what I do 'cause I know when I'm through
I get one more night with you Well, I'm stuck on this five o'clock freeway
Getting home always takes so long
Traffic moves too slow with a busted radio
I can't even find a country song but this road's gonna end
And I know I'm gonna spend one more night with you That's all I think about, I wouldn't wanna live without
Knowing that you're waiting there for me
It don't matter what we do the same old thing or something new
As long as I know there's gonna be one more night with you I hate to waste the time I spend sleeping
And I wake up tired from the day before
All I gotta do is think of you and I grab my hat and I'm headed for the door
Pretty soon I'm punching in and I do it all again
For one more night with you
