So Long

Stereoside

It started out we were great friends
It went sour couldn't cash us in, no
We figured out that we'de rather do without
Find our way back to our roots again
It seems now that your tryin' to come around
But it's to late 'cause you held us down for so long, so long

It's ment to be you just don't know yet
But oneday, someday you gonna regret
Pushing me aside while you get your fix
Watching me squirm while you lick your lips
Yeah

Well so long, so long

So your a bigshot
Sittin on top
Aint got no time for the little guy
Well it seems now that your tryin' to come around
But it's to late 'cause you held us down

It's ment to be you just don't know yet
But oneday, someday you gonna regret
Pushing me aside while you get your fix
Watching me squirm while you lick your lips
Yeah
It's ment to be you just don't know yet
But oneday, someday you gonna regret
Pushing me aside just to get your fix
Watching me squirm while you lick your lips
Yeah

So long, so long
