

When The Right One Comes Along

Nashville Cast

There's no music, no confetti
Crowds don't cheer, and bells don't ring
But you'll know it, I can guarantee
When the right one comes along What they're thinkin', what you're feelin',
You no longer have to guess
All those questions are finally put to rest
When the right one comes along Every single broken heart will lead you to the truth
You think you know what you're lookin' for
'Til what you're lookin' for finds you In a cold world, it's a warm place
Where you know that you're supposed to be
A million moments full of sweet relief
When the right one comes along Every single broken heart will lead you to the truth
You think you know what you're lookin' for
'Til what you're lookin' for finds you It's so easy, nothin' to it
Though you may not believe me now
But I promise, honey you'll find out
When the right one comes along All that changes is only everything
When the right one comes along
