

# Over Your Shoulder

## Seven Mary Three

There's a mark on my back  
From my last heart attack  
A whiskey mouth bottleneck card stack  
There's a source, of course  
She says, "It's whispering at night  
Like air leaks from a tire  
The truth outruns your lies"  
If you jump track, thinkin' it's over, remember?  
Sooner or later it's over your shoulder  
Sooner or later it's over your shoulder  
Sooner or later it's over your shoulder  
I've got a big mechanic mouth  
It resonates with sound  
A forked metallic tongue  
It's green with what it's found  
Spin my head around  
For a different view  
You can't look straight ahead  
To see what's in front of you  
If you jump track, thinkin' it's over, remember?  
Sooner or later it's over your shoulder  
Sooner or later it's over your shoulder  
Sooner or later it's over your shoulder  
There's a mark on my back  
From my last heart attack  
A whiskey mouth bottleneck card stack  
There's a source, of course  
She says, "It's whispering at night  
Like air leaks from a tire  
The truth outruns your life"  
If you jump track, thinkin' it's over  
You jump thinkin' it's over, track remember?  
Sooner or later it's over your shoulder  
Sooner or later it's over your shoulder
