

It's All Over Your Body

JosÃ© James

Break bread on the water,
Rub me down.
And touch me where you wanna,
It's been awhile.

You ease back for a moment,
But I need it now.
I can't speak much louder,
But you can hear the sound.

[Chorus]
I won't stay if you wanna go,
I can't wait for it anymore,
And the time that I used to know
Is gone away like a river flow.

I can't stay no longer underground
I can't wait 'til this song here and now I'm found.
Lick lips and you know it, love divine
And this love in the morning is finally mine.

[Chorus]
It's all over,
It's all over,
It's all over your body.
It's all over,
It's all over,
It's all over me now, baby.

Make love in the morning,
A soul to sign.
A sweet memory moment,
I'm holding mine.
We go on and on, lord
Into light
In one single emotion
Though the night.

[Chorus]

I won't stay if you wanna go,
I can't wait for it anymore,
And the time that I used to know
Is gone away like a river flow.

It's all over,
It's all over,
It's all over your body.
It's all over,
It's all over,
It's all over me now baby.
