

Cheers Then

Bananarama

Cheers then, here's two old friends
We thought we'd never say goodbye
But those good times came to an end
And it's not worth another try Familiar place, familiar face
But feeling's not the same
Try to relive what we once did
It's just a silly game Cheers then, here's two old friends
We thought we'd never say goodbye
But those good times came to an end
And it's not worth another try One of the crowd, it felt so safe
I never felt alone
Together every day and night
When you and me were young Ooh ooh ooh Cheers then, here's two old friends
We thought we'd never say goodbye
But those good times came to an end
And it's not worth another try Time that lapsed, a bond collapsed
We never planned for that
You felt betrayed I let you down
You're better on your own Ooh ooh ooh Cheers then, it had to end
Cheers then, another try
Cheers then, here's two old friends
Cheers then, we're saying goodbye
Cheers then, we're saying goodbye
Cheers then
