

# Empire (MIDI Version)

## August Burns Red

Skyscrapers, earth movers, ground breakers  
Our buildings rival the heavens  
Our bridges span the seas  
Ingenuity is so cunning  
Innovation is not ours  
Creativity is a luxury  
We build with our hands  
What we have in our hearts Fight the avalanche  
You'll be buried every time  
We run and run and run  
Keep falling behind  
Fight the avalanche  
You'll be buried every time  
We run and run and run  
Always last in line Before lines were lines  
Before time was time  
The author wrote a story  
In the sky and earth below  
Little do we know  
We have only what we're given  
Light up the sky, light up the sky  
We're going where no man Little do we know  
We have only what we're given  
Light up the sky  
We're going where no man's forgotten  
All you are is all we want  
It burns inside us all  
We're finding heart in giving soul  
We're walking home into thin air singing We are justice fighters with faces of fire  
Many walk away, but we stand firm  
We are justice fighters with faces of fire  
Our decisions affect our descendants  
We are justice fighters with faces of fire Skyscrapers, earth movers, ground breakers  
Our footsteps, bringing purpose, changing history  
Skyscrapers, earth movers, ground breakers  
Our footsteps, bringing purpose, changing history
