

# Penelope (Acoustic)

## Saosin

Oh Penelope  
Are you filled with air  
Swallowed oxygen  
That makes you float up?  
Its a travesty  
Will your lungs swell?  
Its depressing me  
To see you struggle Oh Penelope  
Are you filled with air  
Swallowed oxygen  
That makes you float up?  
its a travesty  
Will your lungs swell? Its depressing me  
To see you struggle  
Im treading water with my oars  
Glass galeons anchored, oceans floor  
Im diving down with all my gear  
In search of treasure, para mi corazon Take you to the forest  
Let you feel the raindrops falling down  
Seeping through your redscales  
Eliminate the faucet  
Eliminate the need for water  
Replace it with a safe shell Dont wanna see you floating upside down  
On the top of the bowl when I  
Come round to visit you  
Dont wanna see you floating upside down No girl  
Need you there, Need you there, Need you there  
Ooh Release that air  
(Im treading water with my oars  
Glass galeons anchored, oceans floor  
Im diving down with all my gear  
In search of treasure, para mi corazon) Take you to the forest  
Let you feel the raindrops falling down  
Seeping through your redscales  
Eliminate the faucet  
Eliminate the need for water  
Replace it with a safe shell
