NUMBER ONE

WITH GEORGE JONES

WRITER JERRY CHESNUTI don't wanna see no lips of all the lips you've ever kissed

I just wanna be your No 1

I don't need no one to warm me I don't care who came before me

I just wanna be your No 1

All that happened yesterday is now a part of history

Let me be your destiny let's do what's right for you and me

I don't wanna try and undo all the wrong somebody done you

I just wanna be your No 1

My whole world revolves around you life began the day I found you

I just wanna be your No 1

Let's not spend no time discussin' anything that don't mean nothin'

I just wanna be your No 1

Take me in your arms turn out the light lock the door

And I won't even wonder if somebody had a key before

I don't wanna solve no mist'ry yesterday belongs to hist'ry

I just wanna be your No 1 No 1 I just wanna be your No 1

I just wanna be your No 1 I just wanna be your No 1
