

Proxy & Wage

[Bryan Eggers](#)

If I told you, I could show you love and all that it entails
Would you follow me?
If I told you we could pull up your anchor and lift your weary sails
Would you follow me?

Now are the days (now are the days)
Surely there's blood in the veins
Loosen the blinders with gentle reminders
Now are the days of proxy and wage

If I told you, that your magic, and your stars they cannot grasp it
Would you follow me?
If i told you that the ones who claim to know it weep and wail
Would you follow me?

If i told you, all you had was one more day to live the earth
Would you follow me?
Would you let me speak and show you just exactly what your worth
Come and follow me

If I told you I could show you love and all that He entails
Would you follow me?
If I told you love is not a feeling, its the man who never fails
Would you follow me?
