

Three Lock Box

Sammy Hagar

Suckers walk, money talks
But it can't touch my three lock box
Mysteries of the days of old
You find the key, you got the gold
One, two, three lock box
One, two, three lock box
One, two, three lock box
Treasure's here, sunken there
Buried treasure's everywhere
One, two, three lock box
One, two, three lock box
Don't go far, circle close
The father, son, the holy ghost
To the trinity, I raise a toast
One, two, three lock box
Secrets of the trinity
Lie within the number three
One, two, three lock box
One, two, three lock box
One, two, three lock box
One, two, three lock box
