

# Captured By The Moment

Steve Perry

Where did he go  
The man who said, "I have a dream"  
Where have they gone  
The four who sang to "Let it be"  
Jackie's alone  
She lost him one November day  
L.A. Motel  
One sad mistake took Sam away  
Oh, remember then  
Remember when  
Captured by the moment  
In the magic of a yesterday  
Captured by the moment  
And I hope it never fades away  
Sweet Janis cried  
"Lord, won't you buy a Benz for me"  
Jimmy was right  
Castles made of sand slip to the sea  
Oh, remember then

Remember when  
Captured by the moment  
In the magic of a yesterday  
Captured by the moment  
And I hope it never fades away  
Captured by the moment  
Oh, in the magic of a yesterday  
Otis replied  
A little tenderness we gotta try  
One open door  
He tried to set the night on fire  
Captured by the moment  
In the magic of a yesterday  
Captured by the moment  
And I hope it never fades away  
Captured by the moment  
Oh, in the magic of a yesterday  
Oh, whoa whoa
