

# Chlorine

## twenty one pilots

[Intro]

So where are you? It's been a little while[Chorus]  
Sippin' on straight chlorine, let the vibes slide over me  
This beat is a chemical, beat is a chemical  
When I leave don't save my seat, I'll be back when it's all complete  
The moment is medical, moment is medical  
Sippin' on straight chlorine[Verse 1]  
Lovin' what I'm tastin'  
Venom on my tongue  
Dependant at times  
Poisonous vibration  
Help my body run

[Pre-Chorus]

I'm runnin' for my li-i-i-i-i-fe  
Runnin' for my li-i-i-i-i-fe[Chorus]  
Sippin' on straight chlorine, let the vibes slide over me  
This beat is a chemical, beat is a chemical  
When I leave don't save my seat, I'll be back when it's all complete  
The moment is medical, moment is medical  
Sippin' on straight chlorine[Verse 2]  
Fall out of formation  
I plan my escape from walls they confined  
Rebel red carnation  
Grows while I decay

[Pre-Chorus]

I'm runnin' for my li-i-i-i-i-fe  
Runnin' for my li-i-i-i-i-fe  
Yeah, I'm runnin' for my li-i-i-i-i-fe  
Runnin' for my li-i-i-i-i-fe[Verse 3]  
Had you in my coat pocket, where I kept my rebel red  
I felt I was invincible, you wrapped around my head  
Now different lives I lead, my body lives on lead  
The last two line may read incorrect until said  
The lead is terrible in flavour  
But now you double as a papermaker  
I despise you sometimes  
I love to hate the fight and you in my life is like[Chorus]  
Sippin' on straight chlorine, let the vibes slide over me  
This beat is a chemical, beat is a chemical

When I leave don't save my seat, I'll be back when it's all complete

The moment is medical, moment is medical

Sippin' on straight chlorine[Interlude]

Let the vibe, let the vibe

Let the vibe, let the vibe

Beat is a chemical, yeah

Let the vibe, let the vibe

Let the vibe, let the vibe

Moment is medical, yeah

Sippin' on straight chlorine

Let the vibe, let the vibe

Let the vibe, let the vibe

Beat is a chemical, yeah

Let the vibe, let the vibe

Let the vibe, let the vibe

Moment is medical, yeah

Sippin' on straight chlorine[Bridge]

I'm so sorry, I forgot you

Let me catch you up to speed

I've been tested like the end of

A weathered flag that's by the sea[Outro]

Can you build my house with pieces?

I'm just a chemical

Can you build my house with pieces?

I'm just a chemical

Can you build my house with pieces?

I'm just a chemical

Can you build my house with pieces?

I'm just a chemical
