

Did You Know (feat. Debbie Winans)

BeBe Winans

Did you ever know that you were patient, thoughtful?
Did you ever know that you were everything that I need?
Everyone needs to have that someone to listen, laugh with, company
Did you know that you were this to me?
Did you know that you were this to me? Did you ever know that you were awfully inviting?
Did you ever know that you were everything I hoped to be?
Everyone needs to have that someone to lean on, cry with in time of need
Did you know that you were this to me?
Did you know that you were this to me? Just like the birds take to air, the wind holds them there
Safe and lovely across the sky
That's what you did for my heart, right from the start
Did you know that you were this to me?
Did you know that you were this to me? Did you ever know, you're not just a hero?
You have always been there and always will be
Since the moment we met, your love just can't forget
Did you know that you were this to me?
Did you know that you were this to me? Just like the birds take to air, the wind holds them there
Safe and lovely across the sky
That's what you did for my heart, right from the start
Did you know that you were this to me?
Did you know that you were this to me?
