

Take It To Reality

Alison Wonderland

You're dragging me around
hold me to the ground
I don't let you like it
I'm getting kinda down
coz you're never around
and I don't want to fight it
it's never gonna start
if you don't pull apart
the depth of our connection
it's easy to hold hands
and blame it on romance

I'm never gonna mention that I'm
take it to re-al, take it to re-al, take it to reality
take it to re-al, take it to re-al, take it to reality
take it to re-al, take it to re-al, take it to reality
take it to re-al, take it to re-al, take it to reality
tick

tickI stand there with my drink
and ask you what you think
and you kiss me just like that
tell me I'm too much
and you don't want to rush
into this coz I'm worth it
I know I'm playing cool
coz I just want to rule
this whole thing that we started
the only way I'll know
it's really not for show
is if you hear my verses coz i

take it to re-al, take it to re-al, take it to reality
take it to re-al, take it to re-al, take it to reality
take it to re-al, take it to re-al, take it to reality
take it to re-al, take it to re-al, take it to reality
tick

ticky you can take me anywhere
anywhere you want
you can take me anywhere
anywhere you want
you could take me anywhere

anywhere you want
you could take me anywhere
anywhere you wanttake it to re-al, take it to re-al, take it to reality
take it to re-al, take it to re-al, take it to reality
