

# Careful What You Wish For

## Testament

Grace in a perfect world  
On shines the light  
Praise an angelic song  
But there's another side you'll seeNow hide  
Salvation easily deniedReigns down with misery  
Life's not always what it seemsFalse hope  
Written in the testament of old  
Take heed  
Stop believin' every word you readTruth inconsistencies  
Distorts the lies  
False imprisonments  
Forever lost inside your mindFate's door  
Just be careful what you wish for  
Death's door  
Just be careful what you wish forPeace of mind I can't find  
Don't be blind take the rideHey, we live in a fucked up world  
Walkin' on through the demise  
We step into the unknown  
Your better save yourselfHey, we live in a fucked up world  
Hidin' behind the disguise  
Never let your feelings show  
Why can't you be yourself?We live in a fucked up world  
Walkin' on through the demise  
We step into the unknown  
Your better save yourself
