

# Back In the U.S.S.A.

## KMFDM

We're gonna make you sorry  
For every word you say  
Like you both commanders  
We stalk our prey The name of the game  
Is to be the strongest  
Last one laughing  
Laughs the longest The future belongs to those of us  
Still willing to get our hands dirty Voyeuristic, vile, and victorious  
K M F D M is back, bow to the warriors  
Voyeuristic, vile, and victorious  
K M F D M is back, bow to the warriors  
Back in the U.S.S.A. You're just another old stump  
A rusty battle cruiser  
Too tired to riot  
You idiot, you loser The future belongs to those of us  
Still willing to get our hands dirty Voyeuristic, vile and victorious  
K M F D M is back, bow to the warriors  
Voyeuristic, vile and victorious  
K M F D M is back, bow to the warriors  
Back in the U.S.S.A. K M F D M, doing it again  
Eternity's strange affliction  
Over low blackout to fix one nation  
A treat for the freaks, truth or dare  
Narcistic creature  
Are you ready for this My attention is fixed  
We don't care  
Never in madness  
We don't care  
Abomination of the awkward kiss  
We don't care  
You make me sick  
We don't care K M F D M is back  
The future belongs to us  
The future belongs to K M F D M  
You make me sick Voyeuristic, vile and victorious  
K M F D M is back, bow to the warriors  
Voyeuristic, vile and victorious  
K M F D M is back, bow to the warriors  
Back in the U.S.S.A.
