Following

Chungking

Well you don't wanna start
But I don't wanna wanna cry
I'm not getting tired of youWell are you getting over
While I'm getting by
Leaving all the times I've thoughtWhat we had, of course it makes me sad
That is when I say to myselfI won't be following
You were just borrowing meJust one more cup of coffee
Before you have to leave
This room's not getting tired of youI'm hungry for familiar
Look forward to my bath
Underwater time machine knowsWhere you'll be,
I hope you think of me,
Even though you say to yourselfI won't be following x3
you ooooooooooh
[instrumental]I won't be following
What we had, of course it makes me sad
We could be wrong, maybe we belong
