

# Island of Fools

## Alter Bridge

[Verse 1]

Shatter the illusions of the world

That you believed in long ago

You can't let go

Nothing's sacred, can't survive

You've reached the end on borrowed time

But you must try[Chorus]

Just save yourself

There is nothing to hide but the truth

There's no one else here beside you

Please save yourself

Cause you don't have a moment to lose

And time will tell

If you're meant to survive on your own[Verse 2]

Crying for redemption

There's a mystery below, he broke your heart

And left you scarred

The time is now, there's no recourse

It's only what you see and what you want

And though it's hard[Chorus]

Just save yourself

There is nothing to hide but the truth

There's no one else here beside you

Please save yourself

Cause you don't have a moment to lose

And time will tell

If you're meant to survive on your own

On your own[Guitar Solo][Verse 3]

When will you see

The promise of what life should be

Your destiny

You must believe

That courage is all that you need

That's all you need

(All you need)[Chorus]

(Save yourself)

There is nothing to hide but the truth

(No one else)

Left beside you

(Save yourself)  
Or you're lost on this island of fools  
(Time will tell)  
If you're meant to survive on your own
